## **5 Risk factors**

---

### **5.1 General**

There are a number of factors, both specific to the Company and of a general nature, which may affect the future operating and financial performance of the Company, its products, the industry in which it operates and the outcome of an investment in the Company. There can be no guarantee that the Company will achieve its stated objectives or that forward-looking statements will be realised.

This section describes certain, but not all, risks associated with an investment in the Company. Each of the risks set out below could, if it eventuates, have a materially adverse impact on the Company's operating performance, financial performance, financial position, liquidity and the value of its Shares.

Before deciding to invest in the Company, potential investors should read the entire Entitlement Offer Booklet and the risk factors that could affect the financial performance of the Company.

You should carefully consider these factors in light of your personal circumstances and seek professional advice from your accountant, stockbroker, lawyer or other professional adviser before deciding whether to invest.

### **5.2 Specific Risk Factors**

In addition to the general risks set out in section 5.3, the Directors believe that there are a number of specific factors that should be taken into account before investors decide whether or not to apply for Listed Options. Each of these factors could have a materially adverse impact on the Company, its expansion plans and operating strategies and its financial performance and position.

These include:

#### **(a) Impact of COVID-19**

The ongoing COVID-19 pandemic has had a significant impact on the global and Australian economy and the ability of businesses, individuals and governments to operate. Emergency powers and restrictions have been enacted on an international, Federal and State level in Australia which, amongst other things, has restricted travel and the ability of individuals to leave their homes and travel to places of work.

Given the high degree of uncertainty surrounding the extent and duration of COVID-19, it is not currently possible to assess the full impact of COVID-19 on the Company's business.

However, a number of aspects of the Company's business may be directly or indirectly affected by government, regulatory or health authority actions, including without limitation work stoppages, lockdowns, quarantines and travel restrictions associated with COVID-19.

There is a risk that if the duration of events surrounding COVID-19 are prolonged, the Company may need to take additional measures in order to respond appropriately (eg restructuring to reduce further costs from its business and raising additional funding).

There are also other changes in the domestic and global macroeconomic environment associated with the events relating to COVID-19 that are beyond the control of the Company and may be exacerbated in an economic recession or downturn. These include but are not limited to (i) changes in inflation, interest rates and foreign currency exchange rates; (ii) changes in employment levels and labour costs; (iii) changes in aggregate investment and economic output (iv) supply chain challenges; and (v) other changes in economic condition which may affect the revenue or costs of the Company.

(b) **Business development risk**

The Company is advancing its clean-energy incubator/accelerator strategy which involves acquiring strategic stakes and nurturing renewable energy projects and technologies. Accordingly, there is a risk that the Company may not be able to convert opportunities into commercial outcomes. Establishing and converting opportunities into commercial outcomes is vital in order for the Company to achieve its stated objectives in owning a portfolio of renewable energy projects and assets which produce long term revenue streams or achieve profits for the Company (whether via IPO, sale of the projects or distribution of profits).

(c) **Commercialisation Risk**

On 25 June 2021, the Company announced the acquisition of a cornerstone interest in Uniflow Power Limited (**UPL**), an unlisted public company commercialising a patented micro-renewable energy generator that may be powered by biomass, solar or waste – known as The Cobber. The Cobber is an advanced prototype subject to a commercialisation. Government policy or regulation change in target markets or advances in other forms of technology could impact the competitiveness of the Cobber, and challenges identified during commercialisation could impact the profitability of The Cobber. These and other risks could adversely impact the Company's cornerstone investment in UPL.

(d) **Funding risk**

The Company currently operates on a negative cash operating basis in that its operating expenses exceed its revenue. The Company's revenue depends on its ability to advance its incubator/accelerator strategy and achieve revenue streams either by moving to a controlling interest in its targets, supporting targets through to an IPO process or exiting via trade sale. There is a risk that opportunities identified may take longer than expected to materialise or not be realised at all. There is no guarantee that the monies raised under the Placement will be adequate or sufficient to meet the ongoing funding requirements of the Company under its current business plan.

If the Company requires access to further funding at any stage in the future, there can be no assurance that additional funds will be available either at all or on terms and conditions which are commercially acceptable to the Company. If the Company is unable to obtain such additional capital, it may be required to reduce the scope of its anticipated activities, which could adversely affect its business, financial condition and operating results.

(e) **Geothermal asset remediation risk**

The Company has completed abandonment of the two remaining geothermal wells located in the Cooper Basin of South Australia. In order to surrender the sole remaining geothermal licence, surface remediation activities need to be completed. Remediation activities are strictly regulated by legislation and enforced by government authorities. It is possible that the time to complete the remaining surface remediation may take longer than currently anticipated and may incur additional costs, delaying the closing out and exiting of the project.

(f) **Other specific risks**

- (i) **Key person risk** – the successful operation of the Company's business relies on its ability to retain experienced and high-performing key Board, management and operating personnel. The Company may not successfully retain existing, and/or attract new, key personnel. The unexpected loss of any key personnel, or the inability on the part of the Company to attract experienced personnel, may adversely affect the Company's ability to develop and implement its business strategies.
- (ii) **Government policy and regulation may change** – the Company operates in the energy industry which is subject to extensive laws and regulations. Changes in law or regulatory policy could adversely affect the Company's business.  
  
The risk relating to changes in legislation include:
  - (A) changes in the incentives available to support the production of renewable energy; and
  - (B) changes to the laws and regulations applicable to the energy industry sector.
- (iii) **Dividends** – there is no guarantee as to future earnings of the Company, or that the Company will be profitable at any time in the future and there is no guarantee that the Company will be in a financial position to pay dividends at any time in the future.

5.3 **General Risk Factors**

(a) **Share market**

On completion of the Offer, the Shares may trade on the ASX at higher or lower prices. The price at which the Shares trade on the ASX may be affected by the financial performance of the Company and by external factors over which the Directors and the Company have no control.

These factors include movements on international share and commodity markets, local interest rates and exchange rates, domestic and international economic conditions, government taxation, market supply and demand and other legal, regulatory or policy changes.

(b) **Dependence on general economic conditions**

The operating and financial performance of the Company is influenced by a variety of general economic and business conditions, including levels of consumer spending, inflation, interest rates and exchange rates, access to debt and capital markets, government fiscal, monetary and regulatory policies.

A prolonged deterioration in general economic conditions, including an increase in interest rates or a decrease in consumer and business demand, could be expected to have a materially adverse impact on the Company's business or financial condition. Changes to laws and regulations or accounting standards which apply to the Company from time to time could adversely impact the Company's earnings and financial performance.

(c) **Tax risk**

Any change to the company income tax rate in jurisdictions in which the Company operates will impact on shareholder returns, as will any change to the income tax rates applying to individuals or trusts. Any change to the tax arrangements between Australia and other jurisdictions could have an adverse impact on future earnings and the level of dividend franking.

(d) **Legislative and regulatory changes**

Legislative or regulatory changes in jurisdictions in which the Company operates, including property or environmental regulations or regulatory changes in relation to products sold by the Company, could have an adverse impact on the Company.

## **6 Rights attaching to securities**

---

### **6.1 Rights attaching to Shares**

(a) **General**

The rights and liabilities attaching to Shares are set out in the Company's constitution and are regulated by the Corporations Act, the Listing Rules, the rules of ASX Settlement and the general law. Set out below is a summary of the principal rights and liabilities attaching to Shares. This summary is not exhaustive and is not a definitive statement of the rights and liabilities of Shareholders.

(b) **Voting rights**

Subject to any rights or restrictions for the time being attached to any class or classes of Shares, at a general meeting, every Shareholder present in person or by proxy, representative or attorney has one vote on a show of hands and, on a poll, one vote for each fully paid Share. If a Share is a partly paid Share, the holder has a vote in respect of each share on a poll that has the same proportionate value as the proportion that the amount paid (excluding any amount paid or credited as paid in advance of a call) on the share bears to the total Offer Price of the share.

A Shareholder is not entitled to vote at a general meeting unless all calls and other sums presently payable by the member in respect of a share have been paid. Where a Share or partly paid share is jointly held, the vote of the holder whose name in respect of those shares appears first on the Registry of Shareholders is to be treated as the only vote in relation to those shares.

(c) **General Meeting and Notices**

Each Shareholder is entitled to receive notice of, and to attend and vote at, the Company's general meetings and to receive all notices, accounts and other documents required to be sent to Shareholders under the constitution, the Corporations Act or the Listing Rules.

(d) **Dividends**

The Directors alone may declare a dividend to be paid to shareholder. The dividend is payable as soon as it is declared unless the Directors specify a later time for payment.

The Company shall not be liable for any interest in respect of dividends payable to Shareholders.

(e) **Variation of Class Rights**

At present, the Company only has ordinary Shares on issue and has no current plans to create further classes of Shares. The rights and restrictions attaching to a class of the Company's Shares can only be altered with the consent or a special resolution passed at a separate meeting of the holders of that class of share by 75% of those holders, who, being entitled to do so, vote at that meeting or with the written consent of members with at least 75% of votes in the class.

(f) **Further Issues of Shares and Options**

The Directors may, subject to the Corporations Act, the Listing Rules or any special rights conferred on the holders of any Share or class of Share, issue or dispose of Shares or grant options over Shares to any person at any time and on any terms and conditions as they think fit.

(g) **Pre-Emptive Rights**

Holders of Shares do not have any pre-emptive rights under the constitution. Under the Listing Rules, certain restrictions apply to a listed company offering its Shares otherwise than pro-rata among shareholders.

(h) **Winding Up**

If, on winding up of the Company, there remains a surplus, that surplus will, subject to the terms of issue of each share, the Act, the Listing Rules, and any agreement between a Shareholder and the Company to the contrary, be divided as determined by the liquidator, between the members or different classes of members.

(i) **Small holdings**

The Directors may resolve to deliver a notice to a Shareholder who holds less than a marketable parcel of shares (**Small Holding**). The notice must advise the Shareholder that the Company intends to sell the Small Holding and state that unless the Shareholder advises the Company before the relevant date that the Shareholder intends to retain the holding, the Small Holding will be sold.

(j) **Buy Backs**

Subject to applicable laws, in particular the Corporations Act and the Listing Rules, the Company may buy back shares on such terms and conditions as the Board may determine from time to time.

(k) **Transfer of Shares**

Subject to the Listing Rules and the constitution, the shares are transferable in accordance with CHESS (for CHESS Approved Securities), by instrument in writing in any usual or common form or in any other form that the Directors approve.

(l) **Directors**

The minimum number of Directors is three and the maximum ten. The Board may appoint additional Directors to fill a casual vacancy. The Directors may not reduce the minimum number of Directors below the number in office at the time of the reduction. At each of the Company's annual general meetings, one-third of the Directors (or, if the number of Directors is not a multiple of three, then the number nearest one-third) and any other Director who has held office for three years or more must retire from office. Any Managing Director is exempted from retirement by rotation. A retiring Director is eligible for re-election.

(m) **Indemnities and Insurance**

The Company may to the extent permitted by law and subject to the Corporations Act, indemnify current and past Directors, secretaries and executive officers of the Company and of any subsidiary of the Company against a liability incurred by the person acting in that capacity and against all legal costs incurred in connection with proceedings in which the person becomes involved because of that capacity. The Company may pay the premium on a policy of insurance in respect of a person who is or has been an officer of the Company to the extent permitted by law.

(n) **Amendment of the Constitution**

The Corporations Act provides that the constitution of a company may be modified or repealed by a special resolution passed by the members of the Company. The Company's constitution does not impose any further requirements to be complied with to effect a modification of the constitution, or to repeal it.

6.2 **Listed Options**

(a) **Entitlement**

Subject to and conditional upon any adjustment in accordance with these conditions, each Listed Option entitles the holder to subscribe for one fully paid ordinary share (**Share**) upon payment of the Exercise Price.

(b) **Exercise Price**

The Exercise Price of each Listed Option is \$0.07 (**Exercise Price**).

(c) **Exercise Period**

A Listed Option is exercisable at any time on or before 5.00pm (Brisbane time) on 31 December 2023 (the **Expiry Date**). Options not exercised by the Expiry Date lapse.

(d) **Manner of exercise of Listed Options**

Each Listed Option may be exercised by notice in writing addressed to the Company's registered office. The minimum number of Options that may be exercised at any one time is 100,000 or the balance of any Listed Options held by the Optionholder. Payment of the Exercise Price for each Listed Option must accompany each notice of exercise of option. All cheques must be payable to the Company and be crossed 'not negotiable'.

(e) **Ranking of Shares**

Shares issued on the exercise of Listed Options will rank equally with all existing shares on and from the date of issue in respect of all rights issues, bonus share issues and dividends which have a record date for determining entitlements on or after the date of issue of those shares

(f) **Timing of issue of shares**

After a Listed Option is validly exercised, the Company must as soon as possible:

- (i) issue and allot the share within 10 business days; and
- (ii) do all such acts matters and things to obtain the grant of quotation for the shares on ASX no later than 10 business days from the date of exercise of the Listed Option.

(g) **Listed Options transferrable**

Listed Options may be transferred in the same manner as shares and may be exercised by any other person or body corporate.

(h) **Participation in new issues**

An Optionholder may participate in new issues of securities to holders of shares only if and to the extent that:

- (i) A Listed Option has been exercised; and
- (ii) a share has been issued in respect of the exercise before the record date for determining entitlements to the new issue.

(i) **Adjustment for bonus issues of shares**

- (i) the number of shares which must be issued on the exercise of a Listed Option will be increased by the number of shares which the Optionholder would have received if the Optionholder had exercised the Listed Option before the record date for the bonus issue; and
- (ii) no change will be made to the Exercise Price.

(j) **Reconstructions**

If there is any reconstruction of the issued share capital of the Company, the number of shares to which the Optionholder is entitled, and/or the Exercise Price, must be reconstructed in a manner which complies with the Listing Rules (which will not result in any benefits being conferred on the Optionholder which are not conferred on shareholders and subject to the provisions with respect to rounding of entitlements as sanctioned by the meeting of shareholders approving the reconstruction of capital), but in all other respects, the terms for the exercise of a Listed Option will remain unchanged.
